ErAztun bAginaIA: zAIantzAk Argitzen!!!

The figure consists of six screenshots of the botika mobile application interface, arranged in two rows of three. Each screenshot shows a conversation between the user and the botika service.

- Screenshot 1:** Shows a general message exchange. The user asks about the purpose of a certain medicine, and the botika responds with a link to a prospektua (prospectus) and a note about its normal use.
- Screenshot 2:** Shows a response to a question about the need for a prescription, indicating that it is not always required for over-the-counter medicines.
- Screenshot 3:** Shows a response to a question about the need for a prescription, including a note about the availability of prospectuses online and a link to a video.
- Screenshot 4:** Shows a message about the availability of a medicine, followed by a note about its use for up to 3 days and a detailed explanation of its use.
- Screenshot 5:** Shows a message about the availability of a medicine, followed by a note about its use for up to 3 days and a detailed explanation of its use.
- Screenshot 6:** A search results page titled "Kontsulta gehiago egiteko" showing links to "Osasun-etxea", "Osasun Aholkularitza" (with contact numbers for Araba, Bizkaia, and Gipuzkoa), "Botika", and "Eraztun bagonalera prospektua" with a download link.
